

The 2016 AISC Specification and Steel Construction Manual, 15th Ed. Seminar

Presented by Susan Burmeister

May 4, 2018 | 7:00 a.m. - Noon | Gold Coast Hotel

PRESENTATION SYNOPSIS

The 2016 AISC *Specification for Structural Steel Buildings* and the 15th Edition *Steel Construction Manual* are both available now. Don't miss this half-day seminar where important changes and clarifications that have been incorporated into these documents will be explained. The seminar will examine the *Specification* chapter by chapter and highlight changes since the 2010 version. Design examples will be presented to demonstrate the changes and how to apply useful design aides in the Manual.

This seminar will highlight changes to:

- Treatment of compression members with slender elements
- Treatment of tees and double angles in bending
- Shear provisions for built-up I-shapes
- Bolted connection provisions
- And more...

ABOUT THE SPEAKER

Susan Burmeister, owner and a structural design consultant at S2B Structural Consultants, PLLC with over 20 years of design experience on a variety of structure types around the country. She regularly works with design of steel buildings and design of concrete buildings. She received both her BS and MS from Georgia Institute of Technology. Susan is a member of the AISC Committee on Specifications, the AISC Task Committee #5 on composite member design, secretary of the ASCE Committee on the Design of Steel Building Structures, and sits on the Board of Directors for the Structural Engineers Association of the Metropolitan Washington DC chapter.

PROFESSIONAL DEVELOPMENT HOURS

A certificate for 4.0 Professional Development Hours will be provided by AISC 1-2 weeks after the seminar.
